

NEW CORRUGATING BELT FOR DOUBLE FACERS

CHARACTERISTICS

Material	Polyester Spiral 1,2 MM
Weight	2000 gsm
Thickness	4,0 mm
Breaking Point	8,500 Kg/mt
Temperature Range	Up to 180°C
Permeability	1100 CFM

DESIGN

Special multispiral based fabric with polyester monofilaments

APPLICATIONS

Latest and particularly important development of the corrugator belt technology. Suitable for high-speed machines with shoe press system; extremely high permeability for a better and faster drainage of the board. Low weight for less power consumption and good tracking. Easy installation and virtually no seam. Perfect dimensional stability and reinforced edges with special coating.
